Experience

CodeAlpha

August 2026 – Present

Python Programming Intern

Lucknow, India

- Developed Python-based solutions for real-world tasks, applying core programming and problem-solving concepts under mentor guidance.
- Wrote clean, efficient, and maintainable Python code following industry best practices for readability and reusability.
- Strengthened logical thinking and debugging skills by working through practical programming exercises and project assignments.

Projects

Stock Portfolio Tracker | Python

GitHub

- Built a command-line tool to calculate total investment value from user-input stock names and quantities using predefined prices, with results exportable to .txt and .csv files.
- Applied dictionaries for data storage/lookup and input validation for robust, error-tolerant execution.

Hangman Game | Python

GitHub

- Developed a text-based Hangman game with randomized word selection and letter-by-letter guess tracking.
- Implemented core game logic using while loops, conditionals, and string/list manipulation for an interactive console interface.

Basic Chatbot | Python

GitHub

- Built a rule-based chatbot handling greetings, identity queries, and time-based responses using conditional logic and loops.
- Utilized the datetime module and structured branching logic to generate context-aware replies.

Personal Portfolio Website | HTML, CSS, JavaScript

July 2026 – Present

- Designing and continuously improving a personal portfolio site to showcase projects and skills.
- Applying front-end development practices in HTML, CSS, and JavaScript as part of ongoing learning.

Education

BBD Northern India Institute of Technology (BBDNIIT), AKTU

August 2025 – Present

B.Tech, Computer Science & Engineering (AI/ML)

Lucknow, India

DSM Lions Public School

April 2021 – May 2024

Higher Secondary Education (10th + 12th)

Ayodhya, Uttar Pradesh, India

Technical Skills

- **Programming Languages:** C, C++, Python, JavaScript.
- **Web Technologies:** HTML, CSS, Responsive Web Design.
- **Tools & Platforms:** Git, GitHub.
- **Certifications:** Data Analysis Using Python.

Summary

Computer Science student pursuing a B.Tech in AI/ML, with hands-on experience in Python programming and front-end web development. Skilled in building responsive websites and solving programming problems, with a strong foundation in HTML, CSS, JavaScript, Python, Git, and GitHub. Seeking internship opportunities to learn, contribute, and grow as a software developer.
